

Communication Disabilities Access Canada

Requesting a Public Organization to pay for your Communication Assistance

I have a speech, language and communication disability.

In order to participate at this meeting, I need someone to assist with communication. This person has to be someone who knows how to support the communication method(s) I use.

You can help me by:

1. Asking me if I have someone who can assist me and if I need you to pay that person.
2. Ask me if you can help me find someone who can assist me with communication. I may know someone you can call or you can search for someone on the communication assistance database.
3. If you are going to search the database for someone to assist me, it helps to know my disability and the communication methods I use.
4. The CDAC Communication Assistance database can be accessed at:

<http://www.cdacanada.com/communication-assistance-database/>

Thank you.
